

General Ship Knowledge (GSK)

424 Practice Questions and Answers for STCW Exams

Updated for DG Shipping India Exams | Source: brightmariner.com

Practice Set 1

Q1. K-S-A-V stands for

- A) Knowledge, Style, Attitude, Values
- B) Knowledge, Seamanship, Altitude, Values
- C) Knowledge, Skills, Aptitude, Values
- D) Knowledge, Skills, Attitude, Values

Correct Answer: D (Knowledge, Skills, Attitude, Values)

Q2. Match the term "MODE OF COMMUNICATION" with the most suitable answer given below

- A) Computer
- B) Receiver
- C) Noise
- D) Speaker

Correct Answer: A (Computer)

Q3. Being ethical is important for

- A) Avoiding conflict
- B) Personal life
- C) Office life
- D) Both office and personal life

Correct Answer: D (Both office and personal life)

Q4. Select which is not the chapters of a Personal Computer

- A) Monitor
- B) Central Processing unit (CPU)
- C) Mouse
- D) Steering wheel

Correct Answer: D (Steering wheel)

- A) Monitor engine, machinery and equipment indicators and report abnormalities to ship engineer officer on watch
- B) Lubricate moving chapters of engines, machinery and equipments
- C) Steer ship under the direction of the officer on watch
- D) painting the engine room

Correct Answer: C (Steer ship under the direction of the officer on watch)

Q6. We communicate to

- A) Send information
- B) Please others
- C) Receive information
- D) Send and receive information

Correct Answer: D (Send and receive information)

Q7. When you use a computer, What do you mean by the term "MOUSE" ?

- A) The brain of the computer
- B) Data can be written and rewritten on the CD
- C) Used to point objects on the monitor
- D) Getting Music

Correct Answer: C (Used to point objects on the monitor)

Q8. Telephone is an example of

- A) Barrier in communication
- B) Receiver
- C) Sender
- D) Channel of communication

Correct Answer: D (Channel of communication)

Q9. Match the term "VERBAL COMMUNICATION" with the most suitable answer given below

- A) Speaking
- B) Noise
- C) Computer
- D) Facial Expression

Correct Answer: A (Speaking)

Q10. Which of the following is required for success of a project?

- A) Purpose and Goal
- B) Lots of money
- C) Politics
- D) Personal gain

Correct Answer: A (Purpose and Goal)

- A) Responding well
- B) Dominating others
- C) Practicing or learning
- D) Cooperating with others

Correct Answer: C (Practicing or learning)

Q12. Which of the following is NOT a communication skill?

- A) Teaming
- B) Writing
- C) Speaking
- D) Reading

Correct Answer: A (Teaming)

Q13. When you use a word file in a computer What do you mean by the term "SPELL GRAMMER" ?

- A) Opens an existing file
- B) Writes numbered bullets
- C) Changes the color of the text
- D) Spelling and grammer check

Correct Answer: D (Spelling and grammer check)

Q14. When you use a computer, What do you mean by the term "KEYBOARD" ?

- A) Used to point objects on the monitor
- B) Data can be written and rewritten on the CD
- C) Peripheral to the computer
- D) Like a type-writer ;communicates with computer

Correct Answer: D (Like a type-writer ;communicates with computer)

Q15. When you use a computer, What do you mean by the term "ZOOM"?

- A) Zoom in and Zoom out
- B) Opens a new word document
- C) Cuts files into the clip-board
- D) Writes numbered bullets

Correct Answer: A (Zoom in and Zoom out)

Q16. Which of the following is a NOT a quality of a good leader:

- A) Inspiring
- B) Dedication
- C) Forward looking
- D) Demanding

Correct Answer: D (Demanding)

- A) Reading
- B) Use of Senses
- C) Practice
- D) Asking questions

Correct Answer: C (Practice)

Q18. Showing anger through facial expressions is an example of

- A) Receiving communication
- B) Non - Verbal Communication
- C) Verbal Communication
- D) Mode of communication

Correct Answer: B (Non - Verbal Communication)

Q19. When you use a computer, What do you mean by the term "UNDO"?

- A) Opens a new word document
- B) Redoes previous actions
- C) Undoes previous actions
- D) Shows a preview of files before they print

Correct Answer: C (Undoes previous actions)

Q20. On the day of exam, one should reach the exam center_____ before exam

- A) 5 minutes
- B) 1 hour
- C) 30 minutes
- D) 15 minutes

Correct Answer: C (30 minutes)

Q21. When you use a word file in a computer What do you mean by the term "NEW" ?

- A) Open a new word document
- B) Writes numbered bullets
- C) Opens an existing file
- D) Spelling and grammer check

Correct Answer: A (Open a new word document)

Q22. Printer is a

- A) Peripheral
- B) Memory
- C) Monitor
- D) CD-ROM Drive

Correct Answer: A (Peripheral)

- A) Used to point objects on the monitor
- B) Data can be written and rewritten on the CD
- C) The brain of the computer
- D) Peripheral to the computer

Correct Answer: C (The brain of the computer)

Q24. While doing work, priority should be to

- A) Most important work
- B) Most important and urgent work
- C) Needs of others
- D) Most urgent work

Correct Answer: B (Most important and urgent work)

Q25. One of the internal barriers to communication is

- A) Noise
- B) Time
- C) Ego
- D) Distraction

Correct Answer: C (Ego)

Q26. While studying for examination, one should

- A) Memorize everything
- B) Highlight the main points in the book
- C) Try to understand the matter
- D) Read very carefully

Correct Answer: B (Highlight the main points in the book)

Q27. CPU stands for

- A) Computer processing unit
- B) Central process unit
- C) Computer program unit
- D) Central processing unit

Correct Answer: D (Central processing unit)

Q28. Verbal communication means speaking

- A) False
- B) True

Correct Answer: B (True)

- A) Undoes previous actions
- B) Zoom in and Zoom out
- C) Writes numbered bullets
- D) Opens a new word document

Correct Answer: C (Writes numbered bullets)

Q30. Sending information is the opposite of

- A) Encoding message
- B) Action
- C) Receiving information
- D) Transmitting information

Correct Answer: C (Receiving information)

Practice Set 2

Q1. When you use a word file in a computer What do you mean by the term "PASTE" ?

- A) Spelling and grammer check
- B) Paste copied or cut files into the document
- C) Opens an existing file
- D) Shows a preview of files before they print

Correct Answer: B (Paste copied or cut files into the document)

Q2. When you use a computer, What do you mean by the term "MONITOR" ?

- A) Like a type-writer; communicates with computer
- B) Like a T.V
- C) The brain of the computer
- D) Peripheral to the computer

Correct Answer: B (Like a T.V)

Q3. When you use a computer, What do you mean by the term "SAVE"?

- A) Undoes previous actions
- B) Zoom in and Zoom out
- C) Quick save files
- D) Opens a new word document

Correct Answer: C (Quick save files)

Q4. When you use a word file in a computer What do you mean by the term "BOLD" ?

- A) Opens an existing file
- B) Changes the color of the text
- C) Writes numbered bullets
- D) Changes the Type into

Correct Answer: D (Changes the Type into)

- A) Mental
- B) Social
- C) Physical
- D) Emotional

Correct Answer: D (Emotional)

Q6. Keyboard is like a TV

- A) True
- B) False

Correct Answer: B (False)

Q7. What is important for studying?

- A) Reading speed
- B) Self - Discipline
- C) Good teacher
- D) Proper techniques for studying

Correct Answer: B (Self - Discipline)

Q8. Match the term "NON-VERBAL COMMUNICATION" with the most suitable answer given below

- A) Facial Expression
- B) Lack of confidence
- C) Computer
- D) Noise

Correct Answer: A (Facial Expression)

Q9. One of the most important practice while talking to a person is to

- A) Hold hands
- B) Maintain eye contact
- C) Speak politely
- D) Stand very close to the person

Correct Answer: B (Maintain eye contact)

Q10. The ability to learn by practice is called

- A) Skill
- B) Knowledge
- C) Values
- D) Attitude

Correct Answer: A (Skill)

- A) Used to point objects on the monitor
- B) Data can be written and rewritten on the CD
- C) Sending Messages
- D) Peripheral to the computer

Correct Answer: B (Data can be written and rewritten on the CD)

Q12. Lack of confidence is an Internal barrier to communication.

- A) False
- B) True

Correct Answer: B (True)

Q13. Who is more important in communication process?

- A) Self
- B) Receiver
- C) People
- D) Sender

Correct Answer: B (Receiver)

Q14. Non- Verbal modes of communication are

- A) Words
- B) Symbols
- C) Channel
- D) Speech

Correct Answer: B (Symbols)

Q15. Self expression is NOT the need for communication

- A) False
- B) True

Correct Answer: A (False)

Q16. When you use a word file in a computer What do you mean by the term "OPEN" ?

- A) Opens an existing file
- B) Spelling and grammer check
- C) Writes numbered bullets
- D) Changes the color of the text

Correct Answer: A (Opens an existing file)

- A) Leave it for some time
- B) Give up
- C) Keep doing it till it is complete
- D) Tell someone else to do it

Correct Answer: A (Leave it for some time)

Q18. Match the term "NEED FOR COMMUNICATION" with the most suitable answer given below

- A) Noise
- B) Facial Expression
- C) Feedback
- D) Self-Expression

Correct Answer: D (Self-Expression)

Q19. Match the term "INTERNAL BARRIER" with the most suitable answer given below

- A) Facial Expression
- B) Self-Expression
- C) Noise
- D) Lack of confidence

Correct Answer: D (Lack of confidence)

Q20. Which of the following is unethical? Being

- A) Arrogant
- B) Honest
- C) Cooperative
- D) Punctual

Correct Answer: A (Arrogant)

Q21. When you use a computer, What do you mean by the term "PRINTER" ?

- A) Getting Music
- B) Like a T.V.
- C) Peripheral to the computer
- D) Like a type-writer ;communicates with computer

Correct Answer: C (Peripheral to the computer)

Q22. Communication can be done

- A) Non Verbally
- B) Verbally
- C) By self - expression
- D) Both verbally and non- verbally

Correct Answer: D (Both verbally and non- verbally)

- A) Situations properly
- B) All situations happily
- C) Bad situations
- D) Situations

Correct Answer: A (Situations properly)

Q24. Which of the following works like a brain of a computer:

- A) Monitor
- B) Optical Mouse
- C) CPU
- D) Key Board

Correct Answer: C (CPU)

Q25. Before starting writing in the exam, one should

- A) Write the name and roll no. in answer sheet
- B) Ask question to invigilator
- C) Read the instructions properly
- D) Just start writing

Correct Answer: C (Read the instructions properly)

Q26. When you use a word file in a computer What do you mean by the term "PRINT PREVIEW" ?

- A) Open a new word document
- B) Paste copied or cut files into the document
- C) Changes the color of the text
- D) Shows a preview of files before they print

Correct Answer: D (Shows a preview of files before they print)

Q27. In a team, to achieve a goal is the responsibility of

- A) Management
- B) All team members
- C) An individual
- D) The leader

Correct Answer: B (All team members)

Q28. When you use a computer, What do you mean by the term "CUT"?

- A) Opens a new word document
- B) Quick save files
- C) Undoes previous actions
- D) Cuts files into the clip-board

Correct Answer: D (Cuts files into the clip-board)

- A) False
- B) True

Correct Answer: A (False)

Q30. For good relationship with others

- A) The two most important words: Thank you
- B) The least important word: We
- C) The best words are: You are wrong
- D) The one most important word: You

Correct Answer: A (The two most important words: Thank you)

Q31. The PHYSICAL symptom of stress is

- A) Inability to concentrate
- B) Sweating hands
- C) Tension
- D) Trouble sleeping

Correct Answer: B (Sweating hands)

Q32. Match the term "EXTERNAL BARRIER" with the most suitable answer given below

- A) Facial Expression
- B) Computer
- C) Lack of confidence
- D) Noise

Correct Answer: D (Noise)

Q33. Barriers to communication

- A) Create problems in communication
- B) Make the communication better
- C) Are essential for communication
- D) Do not influence communication

Correct Answer: A (Create problems in communication)

Q34. When you use a computer, What do you mean by the term "REDO"?

- A) Quick save files
- B) Undoes previous actions
- C) Zoom in and Zoom out
- D) Redoes previous actions

Correct Answer: D (Redoes previous actions)

Practice Set 3

- A) Frequently drink coffee to remain awake
- B) Constantly monitor all machinery and indicators and promptly report any abnormality to duty eng
- C) Remain in airconditioned ECR (Eng.Control Room)
- D) Remain in accommodation

Correct Answer: B (Constantly monitor all machinery and indicators and promptly report any abnormality to duty eng

Q2. Keeping Engine Room and all Eng.machinery very clean is important job of

- A) Deck Ratings
- B) Eng. Crew & Eng. Staff
- C) Bosun
- D) Ch.Officer

Correct Answer: B (Eng. Crew & Eng. Staff)

Q3. SOPEP Items, L.S.A. & F.F.A are maintained by

- A) Engineers
- B) Deck Officer and Deck Crew
- C) Eng. Crew
- D) Elect.Officer

Correct Answer: B (Deck Officer and Deck Crew)

Q4. Winches, Cranes and other Machinery on Deck are maintained by

- A) Deck Crew
- B) Eng.Staff & Crew
- C) Bosun
- D) Ch.Off

Correct Answer: B (Eng.Staff & Crew)

Q5. Winches,Cranes,Derricks,Hatchcovers,Gangways are operated by

- A) Eng.Crew
- B) Deck Officers
- C) Deck Crew
- D) Bosun

Correct Answer: C (Deck Crew)

Q6. Chipping & Painting on Deck is

- A) Done by shore staff only
- B) Done by Deck crew as and when required
- C) Done only in Dry dock
- D) Done by Eng. crew

Correct Answer: B (Done by Deck crew as and when required)

- A) OS
- B) Bosun
- C) AB
- D) GS

Correct Answer: C (AB)

Q8. For Mooring and Unmooring ship

- A) Primarily one Deck Team with Ch.Off. goes forward & one deck team with 2nd.Off. goes aft.
- B) Deck Crew goes forward and Eng.Crew goes aft
- C) Mooring & Unmooring is done by shore people
- D) Deck crew without any officer goes Forward & Aft

Correct Answer: A (Primarily one Deck Team with Ch.Off. goes forward & one deck team with 2nd.Off. goes aft.)

Q9. For Anchoring

- A) Ch.Off must proceed on aft stations
- B) Ch.Off. with Bosun & rating must go forward stations
- C) Eng. Crew is required to go forward
- D) Only Deck rating must go forward

Correct Answer: B (Ch.Off. with Bosun & rating must go forward stations)

Q10. Deck Crew Other jobs consist of:

- A) Cleaning Eng.Room
- B) Handle mooring lines, splice&repair ropes,wires,cordage
- C) Cook food in the evenings
- D) Oil Eng. Room machinery

Correct Answer: B (Handle mooring lines, splice&repair ropes,wires,cordage)

Q11. Cleaning Holds or Tanks requires

- A) Max. efforts by Eng.Crew
- B) Max. efforts with sweeping, thorough washing and drying by Deck Crew with Bosun
- C) Quick sweeping by Deck Crew
- D) Quick mopping by any crew.

Correct Answer: B (Max. efforts with sweeping, thorough washing and drying by Deck Crew with Bosun)

Q12. A GP Rating Certificate holder can work in

- A) Deck, Eng. Or Catering Dept.
- B) Deck and/or Eng. Dechapterment
- C) Deck Dechapterment only
- D) Eng. Dept. only

Correct Answer: B (Deck and/or Eng. Dechapterment)

- A) To Keep Lookout on Bridge
- B) To Clean decks
- C) To assist Bosun
- D) To study books

Correct Answer: A (To Keep Lookout on Bridge)

Q14. Engine Dept. consists of

- A) Ch.Eng & 2nd.Eng
- B) Ch.Eng., 2nd.Eng., 3rd.Eng., 4th.Eng., & Eng. Ratings
- C) 2nd.Eng. & Eng. Ratings
- D) Ch.Eng., Ch.Off., 2nd.Eng. & Eng.Ratings

Correct Answer: B (Ch.Eng., 2nd.Eng., 3rd.Eng., 4th.Eng., & Eng. Ratings)

Q15. Master is

- A) Head Of Nautical Dechapterment
- B) Overall In Charge
- C) Head Of Engine Dechapterment
- D) In Charge Of Deck Officers

Correct Answer: B (Overall In Charge)

Q16. Chief Cook, General Steward & Catering Rating form

- A) Catering Dechapterment
- B) General Dechapterment
- C) Galley Dechapterment
- D) Cooking Dechapterment

Correct Answer: A (Catering Dechapterment)

Q17. Deck Dept. consists of

- A) Ch.Off, 2nd.Off , 3rd.Off. and Deck Cadet
- B) Master, Ch.Engr., 2nd.Eng & Ch.Off
- C) Ch.Off, 2nd.Off, 3rd.Off,Dk.Cadet, Bosun,ABs & OSs
- D) Deck Crew & Cabin Crew

Correct Answer: C (Ch.Off, 2nd.Off, 3rd.Off,Dk.Cadet, Bosun,ABs & OSs)

Q18. Maintenance Of Machinery and Propulsion System is responsibility of

- A) Machinery Dechapterment
- B) Chief Engineer Dechapterment
- C) Engine Dechapterment
- D) 2nd.Engineer

Correct Answer: C (Engine Dechapterment)

- A) Engine Dechapterment
- B) Nautical Dechapterment
- C) Captain Dechapterment
- D) Chief Officer Dechapterment

Correct Answer: B (Nautical Dechapterment)

Q20. Two Distinct Dechapterments on ship are

- A) Crew Dept. & Officers Dept
- B) Eng.Rating Dept & Deck Rating Dept
- C) Nautical Dechapterment & Engine Dechapterment
- D) Cabin Dechapterment & Deck Dechapterment

Correct Answer: C (Nautical Dechapterment & Engine Dechapterment)

Q21. Main Function Of Tug Boat is

- A) To Assist in Mooring & Unmooring ships
- B) To Transport stores to ships
- C) To Carry passengers for sightseeing
- D) To assist ships in anchoring

Correct Answer: A (To Assist in Mooring & Unmooring ships)

Q22. OSV Vessels are

- A) Offshore Supply Vessel
- B) Onshore Supply Vessels
- C) Oil Bulk Oil Vessels
- D) Oceangoing Sailing Vessels

Correct Answer: A (Offshore Supply Vessel)

Q23. Main Function of OSV is

- A) To Ferry Provisions, Stores, Crew to Offshore installations like Oil Rigs and Oil Wells
- B) To Patrol Sea near Ocean Rigs
- C) To tow barges
- D) To carry cargo to coastal ports

Correct Answer: A (To Ferry Provisions, Stores, Crew to Offshore installations like Oil Rigs and Oil Wells)

Q24. LNG Carrier is designed to carry

- A) Liquid Non Corrosive Oil
- B) Gravel Stones
- C) Liquid Nitrogen Gas
- D) Light Density Products

Correct Answer: C (Liquid Nitrogen Gas)

- A) Liquid Chemical Products
- B) Liquid petroleum products
- C) Liquefied Petroleum Gas
- D) Liquid Palm Oil

Correct Answer: C (Liquefied Petroleum Gas)

Q26. A PCC Vessel is

- A) Air Conditioned Passenger Ship
- B) Pure Car Carrier
- C) Packaged Dangerous Chemicals
- D) Chemicals in bulk carrier

Correct Answer: B (Pure Car Carrier)

Q27. A PCC is designed to carry

- A) Dry Chemicals in cases
- B) Cars Only
- C) Petrol Products
- D) 20 Feet Small Containers

Correct Answer: B (Cars Only)

Q28. A LoLo Ship is designed to carry

- A) Full Containers cargo
- B) Lubricating Oil
- C) Grain
- D) Logs

Correct Answer: A (Full Containers cargo)

Q29. A LoLo Ship is

- A) general Cargo Ship
- B) Lift On Lift Off Container ship
- C) Chemical Tanker
- D) Same as RoRo Ship

Correct Answer: B (Lift On Lift Off Container ship)

Q30. A RoRo Ship is designed to carry

- A) 40 Feet Containers
- B) Heavy unpacked machinery
- C) Vehicles on Wheels
- D) Steel Coils

Correct Answer: C (Vehicles on Wheels)

- A) Tanker
- B) Bulk Carrier
- C) General Cargo ship
- D) Container ship

Correct Answer: A (Tanker)

Q32. Scupper is

- A) flag flown on the foremast
- B) Hand Operated pump
- C) Rubber squeegee
- D) Drain pipe

Correct Answer: D (Drain pipe)

Q33. Reefer ship carries

- A) Trucks & Trailers
- B) Cases of machinery
- C) Dangerous cargo
- D) Frozen Cargo

Correct Answer: D (Frozen Cargo)

Q34. Iron Ore is carried in

- A) General Cargo ship
- B) Dry Bulk Carrier
- C) Tanker
- D) Navy ship

Correct Answer: B (Dry Bulk Carrier)

Practice Set 4

Q1. Welding can damage your eye sight if NOT DONE with proper protection

- A) False
- B) True

Correct Answer: B (True)

Q2. Which one of the following is not the Enclosed spaces

- A) Sewage Tanks
- B) Inert Gas scrubber
- C) Cargo Holds and Cargo Tanks
- D) Engine Room

Correct Answer: D (Engine Room)

- A) Lack of oxygen
- B) Flying dust
- C) Fall
- D) Welding

Correct Answer: D (Welding)

Q4. What is the most likely course of Accident when working with Sharp tools

- A) Suffocation
- B) Falls
- C) Head injury
- D) Cuts

Correct Answer: D (Cuts)

Q5. Your Safety onboard is chapterly YOUR OWN responsibility

- A) True
- B) False

Correct Answer: A (True)

Q6. What is the most likely cause of "chaptericle in eye"

- A) Sharp objects
- B) Fall
- C) Flying dust
- D) Lack of oxygen

Correct Answer: C (Flying dust)

Q7. You DO NOT need a HOT WORK PERMIT, before doing Hot Work

- A) False
- B) True

Correct Answer: A (False)

Q8. "Cuts" are caused by

- A) Blunt chisels
- B) Hammers
- C) Sharp objects
- D) Flat spanners

Correct Answer: C (Sharp objects)

- A) Slips
- B) Suffocation
- C) Cuts
- D) Sprains

Correct Answer: A (Slips)

Q10. One should use _____ to protect Nose, Mouth and Face

- A) Hand gloves
- B) Safety shoes
- C) Safety Goggles
- D) Face shield

Correct Answer: D (Face shield)

Q11. Enclosed Spaces can kill you by SUFFOCATION, if proper safe working procedures are not followed.

- A) False
- B) True

Correct Answer: B (True)

Q12. "Suffocation" can be occur due to

- A) Insufficient oxygen
- B) Electrocution
- C) Pollution
- D) Dust in atmosphere

Correct Answer: A (Insufficient oxygen)

Q13. When a Senior Officer Asks you to perform dangerous task without proper safety measures, You must SAY NO

- A) True
- B) False

Correct Answer: A (True)

Q14. Safety Shoes are utilised to protect hands and fingers

- A) True
- B) False

Correct Answer: B (False)

Q15. What is the most likely cause of fracture limbs

- A) Flying dust
- B) Fall
- C) Too much noise.
- D) Sharp objects

Correct Answer: B (Fall)

- A) Nose & mouth, Face
- B) Body
- C) Feet
- D) Head

Correct Answer: B (Body)

Q17. You must wear safety hand gloves and safety goggles while using chipping hammer

- A) True
- B) False

Correct Answer: A (True)

Q18. What is the most likely cause of Chemical burns

- A) Lack of oxygen
- B) Acids and alkalis
- C) Welding
- D) Too much noise

Correct Answer: B (Acids and alkalis)

Q19. "Safety Helmet" is utilised to protect _____

- A) Body
- B) Hands
- C) Head
- D) Nose & mouth, Face

Correct Answer: C (Head)

Q20. You CANNOT use Boiler suit to protect your body from harm.

- A) True
- B) False

Correct Answer: B (False)

Q21. "Hand Gloves" are utilised to protect _____

- A) Body
- B) Feet
- C) Hands
- D) Nose & mouth, Face

Correct Answer: C (Hands)

Q22. One can have permanent DAMAGE to EAR if proper ear protection is not used.

brightmariner.com

- A) True
- B) False

Correct Answer: A (True)

Q23. What is the most likely course of Accident when working under Falling objects

- A) Eyes injury
- B) Head injury
- C) Falls
- D) Burns

Correct Answer: B (Head injury)

Q24. Ear Muffs will protect _____

- A) Eyes
- B) Ears
- C) Feet
- D) Hands

Correct Answer: B (Ears)

Practice Set 5

Q1. The vessels position is plotted on the chart as

- A) Greenwich Mean Time
- B) Longitude only
- C) Latitude only
- D) Latitude and Longitude

Correct Answer: D (Latitude and Longitude)

Q2. House flag is the flag of the

- A) Port of call
- B) State
- C) Shipping Company
- D) Country

Correct Answer: C (Shipping Company)

Q3. The Intercode flag which is hoisted when there is a pilot on board is

- A) A
- B) P
- C) H
- D) G

Correct Answer: C (H)

- A) Switch off steering motor
- B) Change over to emergency steering
- C) Change to auto pilot
- D) Helms no longer required

Correct Answer: D (Helms no longer required)

Q5. Match the term "COMPASS ROSE" with the most suitable answers given below

- A) Green buoy
- B) 60 nautical miles
- C) Solar system
- D) 360 degrees

Correct Answer: D (360 degrees)

Q6. Whilst receiving bunkers you must hoist Intercode flag

- A) "A" (Alpha)
- B) "D" (Delta)
- C) "B" (Bravo)
- D) "C" (Charlie)

Correct Answer: C ("B" (Bravo))

Q7. Match the term "DISTANCE" with the most suitable answers given below

- A) Planet
- B) Divider
- C) Parallel ruler
- D) Depth in metres

Correct Answer: B (Divider)

Q8. Match the term "STARBOARD SIDE OF CHANNEL" with the most suitable answers given below
Match the term "STARBOARD SIDE OF CHANNEL" with the most suitable answers given below

- A) Bay of Bengal
- B) Compass error
- C) Green buoy
- D) Solar system

Correct Answer: C (Green buoy)

Q9. The intercode flag which is hosted when the vessel is handling dangerous cargo

- A) B
- B) C
- C) A
- D) D

Correct Answer: A (B)

- A) 30 nautical miles
- B) 60 nautical miles
- C) 360 degrees
- D) Compass error

Correct Answer: B (60 nautical miles)

Q11. Match the term "OCEAN CHART" with the most suitable answers given below

- A) Green conical buoy
- B) Red can buoy
- C) Planet
- D) Depth in metres

Correct Answer: D (Depth in metres)

Q12. Flag clips are used to join together two or more

- A) Seizing wires
- B) Halyards
- C) Heaving lines
- D) Flags

Correct Answer: D (Flags)

Q13. A strict fire and safety patrol should be kept in the dry dock because

- A) There is no water in dry dock
- B) Of repair work being carried out
- C) There is no ship power supply
- D) There are shore staff present on board

Correct Answer: B (Of repair work being carried out)

Q14. A vessel steering a course of zero degrees true from the equator without the effect of wind or current

- A) Decreases in latitude steadily
- B) Increases in longitude steadily
- C) Decreases in longitude steadily
- D) Increases in latitude steadily

Correct Answer: D (Increases in latitude steadily)

Q15. The colour of a starboard hand buoy is:

- A) Green
- B) Red
- C) Orange
- D) Brown

Correct Answer: A (Green)

General Ship Knowledge (OSKY) Exit Exam Prep
Q16. A vessel steering a course of 090 degrees true from the Greenwich Meridian without the effect of wind or current

- A) Decreases in easterly longitude steadily
- B) Increases in westerly longitude steadily
- C) Increases in easterly longitude steadily
- D) Decreases in westerly longitude steadily

Correct Answer: C (Increases in easterly longitude steadily)

Q17. Match the term "STARBOARD HAND" with the most suitable answers given below

- A) Red can buoy
- B) Depth in metres
- C) Green conical buoy
- D) Parallel ruler

Correct Answer: C (Green conical buoy)

Q18. Match the term "PORT HAND BUOY" with the most suitable answers given below

- A) Green conical buoy
- B) Depth in metres
- C) Star
- D) Red can buoy

Correct Answer: D (Red can buoy)

Q19. When there is any under water diving:

- A) Flag O is hoisted
- B) Flag P is hoisted
- C) Flag B is hoisted
- D) Flag A is hoisted

Correct Answer: D (Flag A is hoisted)

Q20. Equator is at

- A) 90 degrees south
- B) 90 degrees North
- C) 0 degrees
- D) 180 degrees East

Correct Answer: C (0 degrees)

Practice Set 6

- A) 90 degrees North
- B) 0 degrees North
- C) 20 degrees South
- D) 100 degrees North

Correct Answer: A (90 degrees North)

Q2. The shape of a port hand buoy is:

- A) Can
- B) Hexagonal
- C) Circular
- D) Conical

Correct Answer: A (Can)

Q3. The Intercode flag which is hoisted before the vessel is ready to sail is

- A) A
- B) Q
- C) P
- D) B

Correct Answer: C (P)

Q4. A vessel when steering by auto-pilot the helmsman

- A) Can be engage on deck
- B) Can go off duty
- C) Not Required on break Bridge
- D) Required to stand by on bridge

Correct Answer: D (Required to stand by on bridge)

Q5. Ensign flag is the flag of the

- A) State
- B) Port of call
- C) Country
- D) Shipping Company

Correct Answer: C (Country)

Q6. A merchant ship is dry docked at intervals of

- A) 18 months
- B) 30 months
- C) 10 months
- D) 20 months

Correct Answer: B (30 months)

- A) Depth in metres
- B) Moon
- C) Star
- D) Planet

Correct Answer: D (Planet)

Q8. Coastal charts are available as:

- A) Temperature charts
- B) Bar charts
- C) Mercator charts
- D) Solar charts

Correct Answer: C (Mercator charts)

Q9. Match the term "COURSE" with the most suitable answers given below

- A) Moon
- B) Parallel ruler
- C) Depth in metres
- D) Divider

Correct Answer: B (Parallel ruler)

Q10. One nautical mile is equal to

- A) 1800 meters
- B) 1825 meters
- C) 1852 meters
- D) 1865 meters

Correct Answer: C (1852 meters)

Q11. A Mercator chart has the following identity:

- A) Only title
- B) Only number
- C) Alphabetical Code
- D) Title and a number

Correct Answer: D (Title and a number)

Q12. Courtesy Flag is the flag of the

- A) Country which the ship is calling
- B) Country in which the ship is registered
- C) Company
- D) Commonwealth Countries

Correct Answer: A (Country which the ship is calling)

- A) G
- B) H
- C) P
- D) Q

Correct Answer: A (G)

Q14. The Intercode flag which is hoisted when the vessel requires free pratique is

- A) A
- B) B
- C) P
- D) Q

Correct Answer: D (Q)

Q15. Match the term "AZIMUTH MIRROR" with the most suitable answers given below

- A) Green buoy
- B) Solar system
- C) 60 nautical miles
- D) Compass error

Correct Answer: D (Compass error)

Q16. The earth is a planet in the

- A) Lunar system
- B) Satellite system
- C) Nuclear system
- D) Solar system

Correct Answer: D (Solar system)

Q17. A Mercator chart is a:

- A) Polar chart
- B) Stellar chart
- C) Navigational chart
- D) Pictorial chart

Correct Answer: C (Navigational chart)

Q18. Knot is a unit of speed equal to _____ meters per hour

- A) 2100
- B) 2000
- C) 1900
- D) 1852

Correct Answer: D (1852)

- A) Compass error
- B) 60 nautical miles
- C) Plan chart
- D) Green buoy

Correct Answer: C (Plan chart)

Q20. Match the term "JUPITER" with the most suitable answers given below

- A) Compass error
- B) 60 nautical miles
- C) Solar system
- D) Green buoy

Correct Answer: C (Solar system)

Q21. At night a port hand buoy has a _____ light

- A) Green light
- B) Red light
- C) Orange light
- D) White light

Correct Answer: B (Red light)

Practice Set 7

Q1. The cemented spurling pipe prevents

- A) Seaman from falling into the chain locker
- B) Rust from entering into the chain locker.
- C) Cover from getting rusted
- D) Water from entering into the chain locker

Correct Answer: D (Water from entering into the chain locker)

Q2. The scope of cable depends on the

- A) The size of the anchor chain
- B) The thickness of the anchor chain
- C) Length of anchor chain used
- D) The size of the anchor

Correct Answer: C (Length of anchor chain used)

Q3. The term anchor aweigh means

- A) Anchor is sighted
- B) Anchor is running out
- C) Anchor is lost
- D) Let go anchor

Correct Answer: A (Anchor is sighted)

- A) Prevent Anchor chain from running out.
- B) Prevent Anchor chain from coming in
- C) Prevent the Anchor chain from fouling.
- D) Prevent the Anchor from dragging

Correct Answer: A (Prevent Anchor chain from running out.)

Q5. The heaving line is used when berthing to send the

- A) Walkie Talkie ashore
- B) Fire hose ashore
- C) Mooring rope ashore
- D) Rat guard ashore

Correct Answer: C (Mooring rope ashore)

Q6. When berthing a gant line is used to send the

- A) Heaving line ashore
- B) Lashing material ashore
- C) Mooring wire ashore
- D) Fenders ashore

Correct Answer: C (Mooring wire ashore)

Q7. A gant line acts as a

- A) Marking line
- B) Rocket line
- C) Heaving line
- D) Messenger line

Correct Answer: D (Messenger line)

Q8. Aft back spring is used to keep the vessel from moving

- A) Athwart ship direction
- B) Astern
- C) Away from the jetty
- D) Ahead

Correct Answer: B (Astern)

Q9. The last link in the anchor chain is called

- A) Chain end
- B) Bitter end.
- C) Better end.
- D) Half shackle end.

Correct Answer: B (Bitter end.)

- A) The anchor wash valve provides wash water for the
- B) Windlass
- C) Hosing down on deck
- D) Chain locker

Correct Answer: A (The anchor wash valve provides wash water for the)

Q11. Windlass brake lining is attached to

- A) Brake band
- B) Gear box
- C) Windlass motor
- D) Windlass drum

Correct Answer: A (Brake band)

Q12. A vessel can drag anchor when the sea is

- A) Calm with strong tide
- B) Rough with strong tide
- C) Rough with no tide
- D) All of the above

Correct Answer: D (All of the above)

Q13. Fenders are placed on the shipside when coming alongside a jetty to protect the

- A) Bow thrusters from contact damage
- B) Shore bollards
- C) Mooring ropes from wear and tear
- D) Shipside from contact damage

Correct Answer: D (Shipside from contact damage)

Q14. When lowering the tug rope to the tug, the crew must

- A) Lower the rope with a rope stopper
- B) Allow the tug to pull the rope
- C) Lower the rope in a controlled manner
- D) Let the rope run out immediately

Correct Answer: C (Lower the rope in a controlled manner)

Q15. The anchor cable is marked to

- A) Prevent corrosion
- B) Recognize the number of the shackle coming up on deck
- C) Measure the length of each cable
- D) Record when the cable was last painted

Correct Answer: B (Recognize the number of the shackle coming up on deck)

- A) During anchorage.
- B) During repairs to anchor and anchor chain.
- C) During Manoeuvring at the anchorage area
- D) During anchoring operations

Correct Answer: A (During anchorage.)

Q17. When anchoring the order "let go" means

- A) Tighten the windlass brake.
- B) Allow the anchor to run out by releasing the windlass brake
- C) Increase the speed of the windlass
- D) Keep clear of anchor chain

Correct Answer: B (Allow the anchor to run out by releasing the windlass brake)

Q18. All modern ships have a

- A) Kedge anchor
- B) Stockless anchor
- C) Mushroom anchor
- D) Stock anchor

Correct Answer: B (Stockless anchor)

Q19. When a vessel is at anchor the bow stopper relieves the stress on the

- A) Anchor Chain
- B) Anchor Brake
- C) Hawse pipe
- D) Warping drum

Correct Answer: B (Anchor Brake)

Q20. Before proceeding out to sea on a long voyage anchors are secured using

- A) Turnbuckle and wire lashing
- B) Chain stopper
- C) Locking Pin
- D) Windlass Brake

Correct Answer: A (Turnbuckle and wire lashing)

Practice Set 8

Q1. The forecastle of the ship is in the

- A) Midship chapter
- B) Aft chapter
- C) Rear chapter
- D) Forward chapter

Correct Answer: D (Forward chapter)

- A) Prevent anchor chain from running out
- B) Prevent gangway from slipping
- C) Hold tight mooring wire when being transferred
- D) Prevent chain from slipping through hawse pipe

Correct Answer: C (Hold tight mooring wire when being transferred)

Q3. Bell on the forecastle is fitted to

- A) Raise an alarm in case of emergency.
- B) Signal change of watch
- C) Wake the crew Up
- D) Indicate number of anchor shackles paid out

Correct Answer: D (Indicate number of anchor shackles paid out)

Q4. Fenders are placed on the jetty to

- A) Prevent damage to the shipside
- B) To help cargo operations
- C) Keep the ship alongside
- D) To minimize pollution

Correct Answer: A (Prevent damage to the shipside)

Q5. Communication between the bridge and the mooring station is conducted by

- A) Hand signals
- B) Walkie Talkie
- C) Shouting orders
- D) Light signals

Correct Answer: B (Walkie Talkie)

Q6. Forward spring is used in mooring system to prevent the vessel from moving

- A) Away from the jetty
- B) Athwartships direction
- C) Ahead
- D) Astern

Correct Answer: C (Ahead)

Q7. An anchor is used by the ship to

- A) Navigate in shallow waters.
- B) Make the ship fast to seabed.
- C) Tow the ship
- D) Make the ship fast alongside a jetty.

Correct Answer: B (Make the ship fast to seabed.)

- A) Hawse pipe.
- B) Lead pipe
- C) House pipe
- D) Anchor chain pipe

Correct Answer: A (Hawse pipe.)

Q9. In berth rat guards are placed on the ships mooring ropes to

- A) Catch the rats as they move on the mooring rope
- B) Prevent the rats from chewing the rope
- C) Kill the rats as they move on the mooring rope
- D) Prevent rats from entering and leaving the ship

Correct Answer: D (Prevent rats from entering and leaving the ship)

Q10. When passing towline to tug from mooring deck

- A) Take full three turns on the bitts and throw the line towards tug
- B) Pass both ends of the rope to the tug
- C) Take half turn on bitts and pass one eye to the tug
- D) Make fast both ends on board and pass the bight to the tug

Correct Answer: C (Take half turn on bitts and pass one eye to the tug)

Q11. Anchor ball is hoisted on the:

- A) Radar Mast
- B) Stern Post
- C) Fore Castle
- D) Main Mast

Correct Answer: C (Fore Castle)

Q12. Length of each shackle in the anchor cable is

- A) 27.5 kms
- B) 28.5 mtrs
- C) 29.5 mtrs
- D) 27.5 mtrs

Correct Answer: D (27.5 mtrs)

Q13. Breast rope is used in mooring system to prevent the vessel from moving

- A) Towards the jetty
- B) Fore and aft direction
- C) Ahead
- D) Away from the jetty

Correct Answer: D (Away from the jetty)

- A) Lower the anchor to the water level
- B) Lower the anchor to the seabed
- C) Heave the anchor up from the seabed
- D) Check the weight of the anchor

Correct Answer: C (Heave the anchor up from the seabed)

Q15. Bollard is a

- A) Steel block
- B) Stanchion
- C) Air pipe
- D) For making fast mooring ropes/wires.

Correct Answer: D (For making fast mooring ropes/wires.)

Q16. In Mooring term "Make Fast" means

- A) Use the chain stopper
- B) Make fast the hawser on the bitts
- C) Do mooring operations faster.
- D) Start heaving the anchor faster

Correct Answer: B (Make fast the hawser on the bitts)

Q17. When the tug is pulling the ship, the ship's crew should

- A) Stand close to the bollard where the rope is secured
- B) Keep well clear of the tug's rope
- C) Keep slacking the rope as the weight comes on it
- D) Tie a rope stopper to the tugs rope

Correct Answer: B (Keep well clear of the tug's rope)

Q18. In dry dock the anchor cable is

- A) Renewed at one end
- B) Renewed at both ends
- C) Interchanged in the middle
- D) Changed end to end

Correct Answer: D (Changed end to end)

Q19. A merchant ship anchors in the anchorage waiting area when her

- A) Fresh water tank has to be cleaned
- B) Aft draft has to be reduced
- C) Berth is not vacant
- D) Hatch cover has to be chipped and painted

Correct Answer: C (Berth is not vacant)

Practice Set 9

Q1. Cellular container vessel have several lift on lift off hatch cover to

- A) Minimize stress on the trackway
- B) Prevent water from entering into the cargo hold
- C) Reduce the weight of each hatch cover
- D) Carry more containers on deck

Correct Answer: D (Carry more containers on deck)

Q2. Sounding pipe cap is opened with a

- A) T' spanner
- B) Wheel spanner
- C) Box spanner
- D) Ring spanner

Correct Answer: A (T' spanner)

Q3. Prior to loading cargo the hatch covers should be

- A) Hose tested
- B) Painted
- C) Visually checked
- D) Greased

Correct Answer: A (Hose tested)

Q4. The union purchase is rigged with a

- A) Seizing wire
- B) Mooring wire
- C) Bowsing wire
- D) Preventer wire

Correct Answer: D (Preventer wire)

Q5. The strum box is located in the

- A) Galley
- B) Hold bilges
- C) Fore peak store
- D) Mast house

Correct Answer: B (Hold bilges)

Q6. The rubber packing in the hatch cover is used to make it

- A) Water tight
- B) Resistant to ships motion
- C) Weather tight
- D) Airtight

Correct Answer: C (Weather tight)

- A) Gear less bulk carriers
- B) Car carriers
- C) Cellular container ships
- D) General cargo ships

Correct Answer: C (Cellular container ships)

Q8. Sounding of tanks and bilges are taken

- A) Weekly
- B) Fortnightly
- C) Daily
- D) Monthly

Correct Answer: C (Daily)

Q9. The lower the angle of the boom of the derrick or crane

- A) Lesser will be the lifting capacity
- B) Greater will be the lifting capacity
- C) Lesser will be the hoisting rate
- D) Greater will be the hoisting rate

Correct Answer: A (Lesser will be the lifting capacity)

Q10. Hatches are secured by

- A) Chain lashing
- B) Eccentric rollers
- C) Quick acting cleats
- D) Wire lashing

Correct Answer: C (Quick acting cleats)

Q11. The crane jib is raised and lowered with the

- A) Running block
- B) Moving block
- C) Topping block
- D) Standing block

Correct Answer: C (Topping block)

Q12. Before going out to sea all hatch covers should be

- A) Battened down
- B) Kept chapterly open
- C) Closed but not battened down
- D) Battened down chapterly

Correct Answer: A (Battened down)

- A) Machinery cases
- B) Drums
- C) Gunny bags
- D) Pipes

Correct Answer: B (Drums)

Q14. Preventer guy is used when the derrick is working as a

- A) Union purchase
- B) Jumbo derrick
- C) Stulcken derrick
- D) Swinging derrick

Correct Answer: A (Union purchase)

Q15. A cruise liner carries

- A) Grain cargo
- B) Stowaways
- C) Ro Ro cargo
- D) Passengers

Correct Answer: D (Passengers)

Q16. Access to cargo holds is through

- A) Booby hatch
- B) Accommodation
- C) Fore castle
- D) Engine room

Correct Answer: A (Booby hatch)

Q17. Details of the SWL of the shackles and blocks used for the derrick are given in the

- A) Capacity plan
- B) Rigging plan
- C) Ships chaptericulars
- D) General Arrangement plan

Correct Answer: B (Rigging plan)

Q18. Machinery cases loaded in the cargo hold should be lashed with

- A) Nets
- B) Heaving lines
- C) Wire and turnbuckles
- D) Twist locks

Correct Answer: C (Wire and turnbuckles)

- A) Gantry cranes
- B) Cranes
- C) Derricks
- D) Chain blocks

Correct Answer: C (Derricks)

Q20. Bottle screw is used for

- A) Tightening wire ropes
- B) Putting screws
- C) Tightening man ropes
- D) Dunnage

Correct Answer: A (Tightening wire ropes)

Q21. Safe working load of cargo gear is the

- A) Minimum stress or weight required to break it
- B) Minimum weight which can be lifted safely
- C) Total weight required to stretch the wire
- D) Maximum weight which can be lifted safely

Correct Answer: D (Maximum weight which can be lifted safely)

Q22. The crane controls are placed in the

- A) Driver's cabin
- B) Master's cabin
- C) Stevedore's cabin
- D) Owner's cabin

Correct Answer: A (Driver's cabin)

Q23. The weight of the hatch cover in the open position is taken by the

- A) Side rollers
- B) Cleats
- C) Eccentric rollers
- D) Wedges

Correct Answer: A (Side rollers)

Q24. Bulk carrier discharge cargo with

- A) Hosepipes
- B) Shovels
- C) Grabs
- D) Buckets

Correct Answer: C (Grabs)

- A) Chains and shackles
- B) Twist locks and rod lashings
- C) Nylon ropes
- D) Nylon lashings

Correct Answer: B (Twist locks and rod lashings)

Q26. The SWL of derrick

- A) May be exceeded once a voyage
- B) Can be exceeded sometimes
- C) Should never be exceeded
- D) Can be exceeded

Correct Answer: C (Should never be exceeded)

Q27. When a ship goes from cold region to warmer region there is

- A) Warm sweat
- B) Ship sweat
- C) Cold sweat
- D) Cargo sweat

Correct Answer: D (Cargo sweat)

Q28. When filling a ballast tank it is important to

- A) Open the manhole cover
- B) Take gas readings
- C) Make sure that the tank air vents are open
- D) Press up the tank

Correct Answer: C (Make sure that the tank air vents are open)

Q29. Rope slings are used for loading

- A) Motor cars
- B) Containers
- C) Locomotives
- D) Bagged cargo

Correct Answer: D (Bagged cargo)

Q30. Hatch covers can be of the

- A) Lift on Lift off
- B) Folding type
- C) Side opening type
- D) All of the above

Correct Answer: D (All of the above)

Q31. The lower span block of the derrick is connected to the

- A) Mast
- B) Middle of the derrick
- C) Head of the derrick
- D) Heel of the derrick

Correct Answer: C (Head of the derrick)

Q32. The crane body is situated on

- A) Corner post
- B) Mast house
- C) Deck
- D) Crane post

Correct Answer: D (Crane post)

Q33. Cargo holds carrying dangerous cargo should

- A) Have portable foam extinguishers
- B) Not have a fixed fire fighting system
- C) Have portable CO2 extinguishers
- D) Have a fixed fire fighting system

Correct Answer: D (Have a fixed fire fighting system)

Q34. Canvas covers gives air pipes additional protection against

- A) Rust
- B) Corrosion
- C) Pollution
- D) Water ingress in rough weather

Correct Answer: D (Water ingress in rough weather)

Q35. The ship can be penalized in port if there is

- A) machinery breakdown
- B) An oil spill in the harbour water
- C) An emergency alarm
- D) A power failure

Correct Answer: B (An oil spill in the harbour water)

Q36. Before entering ballast tanks you must

- A) Wear face mask
- B) Wear hand gloves
- C) Open tank for ventilation to air out foul gases
- D) Keep fire extinguisher ready near the entrance

Correct Answer: C (Open tank for ventilation to air out foul gases)

Practice Set 10

Q1. Eccentric rollers are lowered on steel hatch covers

- A) When the hatch cover has to be repaired
- B) To make the hatch cover roll on the trackway
- C) To make the hatch cover sit on the trackway
- D) Grease the eccentric rollers

Correct Answer: C (To make the hatch cover sit on the trackway)

Q2. Vehicles are loaded on to a Ro Ro ferry through the

- A) Ramp
- B) Hatch cover
- C) Bulbous bow
- D) Tween deck

Correct Answer: A (Ramp)

Q3. Grabs are used for loading

- A) Liquid cargo
- B) Chemical cargo
- C) General cargo
- D) Bulk cargo

Correct Answer: D (Bulk cargo)

Q4. On a container ship containers have to be secure as per the

- A) Convenience of the lashing gang
- B) Availability of the lashing material
- C) Size of the container
- D) Approved lashing plan

Correct Answer: D (Approved lashing plan)

Q5. A wire snorter is a type of a

- A) Wire sling
- B) Cargo net
- C) Net sling
- D) Wooden tray

Correct Answer: A (Wire sling)

Q6. Hatches are battened down by

- A) Lowering eccentric rollers
- B) Cross wedges
- C) Placing locking pins
- D) Covering with tarpaulin

Correct Answer: B (Cross wedges)

- A) Oil record book
- B) ASTM tables
- C) Calibration tables
- D) Deck log book

Correct Answer: C (Calibration tables)

Q8. Disposal of all cargo residue should be entered in the

- A) Garbage record book
- B) Oil record book
- C) Stevedores record book
- D) Official log book

Correct Answer: A (Garbage record book)

Q9. Container are loaded on board a gearless cellular container ship by

- A) Floating cranes
- B) Derricks
- C) Shore gantry cranes
- D) Grabs

Correct Answer: C (Shore gantry cranes)

Q10. In port loading and discharging on a cellular container ship is by

- A) Shore gantry
- B) Derricks
- C) Wire slings
- D) Grabs

Correct Answer: A (Shore gantry)

Q11. When the derrick is secured for sea the head will rest on the

- A) Mast house
- B) Hatch cover
- C) Deck
- D) Crutch stand

Correct Answer: D (Crutch stand)

Q12. Eccentric rollers are lifted on steel hatch covers

- A) To batten down the hatch cover
- B) To make the hatch cover roll on the trackway
- C) When the hatch cover has to be repaired
- D) Grease the eccentric rollers

Correct Answer: B (To make the hatch cover roll on the trackway)

Q13. Ship sweat occurs when a vessel loads cargo in a

- A) Warm and humid place and goes to a cooler place
- B) Warm place to another warm place
- C) Cold place to another cold place
- D) Cold and wet place and goes to a warm place

Correct Answer: A (Warm and humid place and goes to a cooler place)

Q14. Before entering enclosed spaces, the space must be

- A) Cleaned
- B) Ventilated
- C) Filled with inert gas
- D) Painted

Correct Answer: B (Ventilated)

Q15. Cellular container vessels have several lift on lift off hatch covers to

- A) Prevent water from entering into the cargo hold
- B) Reduce the weight of each hatch cover
- C) Carry more containers on deck Reduce the weight of each hatch cover
- D) Minimize stress on the trackway

Correct Answer: C (Carry more containers on deck Reduce the weight of each hatch cover)

Q16. Purpose of a handlead line is to measure the

- A) Height
- B) Depth of water
- C) Length of a ship
- D) Draft

Correct Answer: B (Depth of water)

Q17. Cargoes which give off gases requires

- A) Cooling
- B) Heating
- C) Ventilation
- D) Drying

Correct Answer: C (Ventilation)

Q18. Cargo hold washing are pumped out

- A) Through the double bottom tank
- B) Into the side
- C) Through the hold bilges
- D) Into the engine bilges

Correct Answer: C (Through the hold bilges)

- A) Above UFL
- B) Between the LFL and UFL in air
- C) Between LFL and UFL in hydrogen
- D) Below LFL

Correct Answer: B (Between the LFL and UFL in air)

Q20. Inert gas has a

- A) High content of oxygen
- B) Low content of nitrogen
- C) High content of sulphur
- D) Low content of oxygen

Correct Answer: D (Low content of oxygen)

Q21. General cargo consists of

- A) Liquid cargo
- B) LNG
- C) Bales
- D) Bulk grain

Correct Answer: D (Bulk grain)

Q22. The cargo hold of a cellular container Ship has the following fittings inside

- A) Tween deck
- B) Cell guides
- C) Pillars
- D) Hatch boards

Correct Answer: B (Cell guides)

Q23. Cargo hold bilge strum boxes should be cleaned

- A) After every discharge of cargo
- B) Every year
- C) Once a month
- D) In dry-dock

Correct Answer: A (After every discharge of cargo)

Q24. All accesses to a cargo hold should be

- A) Corrosion resistant
- B) Water tight
- C) Weather tight
- D) Held tight

Correct Answer: C (Weather tight)

- A) Exceeded when required
- B) Exceeded
- C) Should not be exceeded
- D) Exceeded if operating slowly

Correct Answer: C (Should not be exceeded)

Q26. The ships crane can rotate through

- A) 180 degrees
- B) 270 degrees
- C) 90 degrees
- D) 360 degrees

Correct Answer: D (360 degrees)

Q27. A Ro Ro ship can be used to carry

- A) All of the below
- B) Passengers
- C) Trucks
- D) Cars

Correct Answer: A (All of the below)

Q28. Bilges should be cleaned, covered with burlap and cemented

- A) After loading bulk cargo
- B) After discharging bulk cargo
- C) Prior to loading bulk cargo
- D) Prior to cleaning the cargo hold

Correct Answer: C (Prior to loading bulk cargo)

Q29. At sea container lashings should be tightened

- A) Daily
- B) Fortnightly
- C) Weekly
- D) Only after rough weather is encountered

Correct Answer: A (Daily)

Q30. A LNG tanker carries

- A) Chemicals
- B) Petroleum gases
- C) Crude oil
- D) Liquefied natural gas

Correct Answer: D (Liquefied natural gas)

Q31. A ballast tank must not be pressurized as it will

- A) Cause pollution
- B) Damage the tank
- C) Sink the ship
- D) Increase the draft

Correct Answer: B (Damage the tank)

Q32. All cargo gear should have

- A) Test certificates
- B) Maintenance certificates
- C) Name codes
- D) Colour codes

Correct Answer: A (Test certificates)

Q33. Discharge of chemical cargo tank washing should comply with

- A) ISM
- B) STCW
- C) MARPOL
- D) SOLAS

Correct Answer: C (MARPOL)

Q34. Gooseneck of a derrick is an arrangement

- A) Which supports a derrick block
- B) Which supports the derrick heel
- C) For rigging a Derrick
- D) To house the derrick when at sea

Correct Answer: B (Which supports the derrick heel)

Q35. Prior to loading bulk cargo the holds should be

- A) Cleaned and all the dunnage piled up in one section of the hold
- B) Cleaned in all respects for the next cargo
- C) Swept clean and all sweepings put in the bilges
- D) Cleaned with the bilge cover kept open

Correct Answer: B (Cleaned in all respects for the next cargo)

Q36. Containers are interlocked together with

- A) Bridge fittings
- B) Linkage plate
- C) Twist locks
- D) All of the above

Correct Answer: D (All of the above)

Practice Set 11

Q1. Wire rope should be condemned if more than

- A) 10% of the wires are broken in a length of eight diameters
- B) 12% of the wires are broken in a length of eight diameters
- C) 12% of the wires are broken in a length of eight diameters
- D) 9% of the wires are broken in a length of eight diameters

Correct Answer: A (10% of the wires are broken in a length of eight diameters)

Q2. The knot used for making a back splice is a

- A) Figure of eight knot
- B) Reef knot
- C) Overhand knot
- D) Crown knot

Correct Answer: D (Crown knot)

Q3. Block which has a hinged side is known as

- A) Heel block
- B) Chain block
- C) Snatch block
- D) Gin Block

Correct Answer: C (Snatch block)

Q4. The advantage of using a purchase is that for a given size of wire rope

- A) smaller weight can be lifted
- B) A greater weight can be lifted
- C) The same weight can be lifted
- D) The frictional forces are reduced

Correct Answer: B (A greater weight can be lifted)

Q5. The SWL of each block is punched on the

- A) Swivel
- B) Binding straps
- C) Hook
- D) Cheek

Correct Answer: B (Binding straps)

Q6. A lead block is used in a derrick when rigging the

- A) Purchase to advantage
- B) Stay wire
- C) Preventer wire
- D) Heel block

Correct Answer: A (Purchase to advantage)

- A) Reef knot
- B) Figure of eight knot
- C) Overhand knot
- D) Bowline

Correct Answer: D (Bowline)

Q8. To increase the life of a steel wire rope in a crane it should be

- A) Greased regularly
- B) Painted
- C) Changed end to end
- D) Kept slack on the drum

Correct Answer: A (Greased regularly)

Q9. Proof Load of derrick / crane is

- A) More than breaking strength
- B) More than safe working load
- C) Less than
- D) Same as safe working Load

Correct Answer: B (More than safe working load)

Q10. A single sheave block is used to

- A) Prevent the wire from being damaged
- B) Act as a lead block
- C) Eliminate friction
- D) Increase the power gained

Correct Answer: B (Act as a lead block)

Q11. A shackle is moused to:

- A) Prevent corrosion of the pin
- B) Strengthen the shackle
- C) Prevent the pin from slipping
- D) Increase the SWL of the shackle

Correct Answer: C (Prevent the pin from slipping)

Q12. A purchase is roveto advantage when

- A) The pull is coming from the standing block
- B) The pull is coming from the moving block
- C) The purchase is hoisting more weight
- D) The wire thickness is reduced

Correct Answer: B (The pull is coming from the moving block)

- A) Prevent Accidents
- B) Allow free rotation of sheaves
- C) Maintain the SWL of the block
- D) Keep the check nut tight

Correct Answer: B (Allow free rotation of sheaves)

Q14. The size of a manila rope is usually indicated by its

- A) Diameter
- B) Length
- C) Weight
- D) Circumference

Correct Answer: A (Diameter)

Q15. When rigging the bosun chair the gantline is secured to the chair with

- A) Round turn and two half hitches
- B) Reef knot
- C) Double sheet bend
- D) Clove hitch

Correct Answer: C (Double sheet bend)

Q16. To rig a threefold purchase what blocks are required

- A) One 2 -sheave and one 3 sheave block
- B) Two 3 -sheave blocks
- C) Two 2- sheave blocks
- D) One 2- sheave bock and a single sheave block

Correct Answer: B (Two 3 -sheave blocks)

Q17. Rope should be stored

- A) In a dry well ventilated space
- B) Close to hot bulkheads
- C) In a place which is exposed to hot sunlight
- D) Close to chemicals and paints

Correct Answer: A (In a dry well ventilated space)

Q18. A gun tackle can be used

- A) Only to advantage
- B) Only to disadvantage
- C) Both to advantage and disadvantage
- D) Never to advantage

Correct Answer: C (Both to advantage and disadvantage)

- A) Making way through water in good weather
- B) At anchor in good weather
- C) Underway
- D) Manoeuvring alongside

Correct Answer: B (At anchor in good weather)

Q20. Greasing is carried out on equipment to

- A) Reduce friction
- B) Increase friction
- C) Make it watertight
- D) Make it airtight

Correct Answer: A (Reduce friction)

Practice Set 12

Q1. The purpose of mousing a hook is to

- A) Prevent the hook from getting fouled
- B) Increase the SWL of the hook
- C) Prevent the sling from slipping out
- D) Reduce the swing of the object

Correct Answer: C (Prevent the sling from slipping out)

Q2. When a purchase is rigged to disadvantage the pull is from the

- A) Running block
- B) Standing block
- C) Moving block
- D) Lifting block

Correct Answer: B (Standing block)

Q3. The lay of a right hand lay rope is

- A) Midship to right
- B) Left to left
- C) From right to left
- D) Left to right

Correct Answer: D (Left to right)

Q4. If the sheave is cracked the sheave has to be

- A) Soldered
- B) Welded
- C) Greased
- D) Renewed

Correct Answer: D (Renewed)

- A) Needs to be changed
- B) Needs to be greased
- C) Should be spliced
- D) Will get fouled

Correct Answer: D (Will get fouled)

Q6. Strongest rope for the same diameter is made of

- A) Nylon
- B) Polypropylene
- C) Hemp
- D) Manila

Correct Answer: A (Nylon)

Q7. Grease nipples are provided on blocks for

- A) De-greasing
- B) Applying anti-rust
- C) Painting
- D) Lubrication

Correct Answer: D (Lubrication)

Q8. The split pin on a shackle prevents the pin from

- A) Getting corroded
- B) Unlocking
- C) Getting jammed
- D) Getting stuck

Correct Answer: B (Unlocking)

Q9. The power gained in a threefold purchase is

- A) More than a twofold purchase when rove to advantage
- B) Less than a twofold purchase
- C) More than a gun-tackle
- D) Same as a twofold purchase

Correct Answer: A (More than a twofold purchase when rove to advantage)

Q10. The knot used at the end of a heaving line is a

- A) Bowline on the bight
- B) Carrick bend
- C) Monkey fist
- D) Crown knot

Correct Answer: C (Monkey fist)

- A) Tied with a knot to the fiber rope
- B) Connected with a shackle
- C) Spliced to fiber rope
- D) Fitted with a thimble

Correct Answer: D (Fitted with a thimble)

Q12. Breaking strength of a rope

- A) Is more than the safe working load
- B) Equal to safe working load
- C) Less than safe working load
- D) Is the amount it stretches on load

Correct Answer: A (Is more than the safe working load)

Q13. Kinks in the rope

- A) Cause a permanent reduction to the length of the rope
- B) Damage the fairleads
- C) Can cause permanent injury to the rope
- D) Damage the warping drum

Correct Answer: C (Can cause permanent injury to the rope)

Q14. Eye splice is used

- A) to make a permanent eye at end of the rope
- B) To join two ropes together
- C) For preventing the rope end from unlaying
- D) To prevent the strands from unlaying

Correct Answer: A (to make a permanent eye at end of the rope)

Q15. Extra flexible steel wire rope has

- A) 6x24 wires per strand
- B) 6x12 wires per strand
- C) 6x37 wires per strand
- D) 6x48 wires per strand

Correct Answer: C (6x37 wires per strand)

Q16. The lifeboat lifeline has the following knot on it at fixed intervals

- A) Reef knot
- B) Sheep-shank
- C) Bowline
- D) Figure of eight knot

Correct Answer: D (Figure of eight knot)

- A) Prevent the ends of a rope from unlaying
- B) To protect the rope from weather
- C) Protect the ends from chafing damage
- D) Join two ropes of equal size

Correct Answer: A (Prevent the ends of a rope from unlaying)

Q18. If more than 10% in 8 diameters is broken the wire should be

- A) Renewed
- B) Welded
- C) Turned end to end
- D) Cut and spliced

Correct Answer: A (Renewed)

Q19. Before working on the stage the seaman should inspect the stage to ensure that the

- A) Length of the stage is 2m
- B) Mooring lines are kept tight
- C) Wood is intact and free from grease
- D) Rope is of polypropylene

Correct Answer: C (Wood is intact and free from grease)

Q20. When lifting a spar vertically through a manhole the hitch to use is

- A) Clove hitch
- B) Timber hitch
- C) Draw hitch
- D) Midshipman hitch

Correct Answer: B (Timber hitch)

Practice Set 13

Q1. In freezing weather the mooring winches should be started at least 30 minutes before use to

- A) Remove the ropes from the store
- B) Check the oil level
- C) Warm up the system
- D) Lower the anchor

Correct Answer: C (Warm up the system)

Q2. The full form of EEBD is

- A) Emergency exit below deck
- B) Emergency escape below deck
- C) Emergency escape breaking device
- D) Emergency escape breathing device

Correct Answer: D (Emergency escape breathing device)

- A) Foreign bodies entering
- B) Wet weather
- C) Heavy weather
- D) Snow

Correct Answer: A (Foreign bodies entering)

Q4. After abandon ship, the survivors in a lifeboat must be given

- A) Two litres of water each
- B) One litre of water each
- C) No water for the first twenty four hours
- D) Half a litre of water each

Correct Answer: C (No water for the first twenty four hours)

Q5. When the ship is alongside a wharf the safe access to the ship is by the

- A) Gangway
- B) Combination ladder
- C) Coolie ladder
- D) Pilot ladder

Correct Answer: A (Gangway)

Q6. Match the word "RESTRICTED IN HER ABILITY TO MANEUVER" with the most suitable word given below

- A) One prolonged blast followed by two short
- B) Altering course to Starboard
- C) One prolonged blast every two minutes
- D) Five short blasts

Correct Answer: A (One prolonged blast followed by two short)

Q7. SOLAS deals with

- A) Safety
- B) Tank cleaning
- C) Crew welfare
- D) Pollution

Correct Answer: A (Safety)

Q8. Disposal of all food waste should be entered in the

- A) Oil record book
- B) Garbage record book
- C) Bridge log book
- D) Cargo record book

Correct Answer: B (Garbage record book)

- A) Count number of seamen working
- B) Engine room to switch off air/steam to whistle
- C) Master
- D) Engine room to switch off power on deck

Correct Answer: B (Engine room to switch off air/steam to whistle)

Q10. What type of portable extinguisher should be used for oil fire

- A) Foam type
- B) Soda water
- C) CO2 type
- D) Water type

Correct Answer: A (Foam type)

Q11. Match the term "MAKING WAY THROUGH WATER" with the most suitable answers given below

- A) Five short blasts
- B) Altering course to Starboard
- C) One prolonged blast every two minutes
- D) One prolonged blast followed by two short

Correct Answer: C (One prolonged blast every two minutes)

Q12. Number of lifebuoys on a ship depends on its

- A) Length
- B) Draught
- C) Moulded breadth
- D) Deadweight

Correct Answer: A (Length)

Q13. What immediate action will you take if you see a man falling overboard at sea

- A) Release lifebuoy and MOB
- B) Sound emergency station
- C) Jump into the sea
- D) Inform duty officer

Correct Answer: A (Release lifebuoy and MOB)

Q14. When you smell something burning in your cabin your first action should be

- A) Telephone the next cabin to warn
- B) Vacate the cabin and raise alarm
- C) Wait for the fire alarm to ring
- D) Get a portable extinguisher to extinguish fire

Correct Answer: B (Vacate the cabin and raise alarm)

- A) Pyrotechnics
- B) Fire technics
- C) Light technics
- D) Flare technics

Correct Answer: A (Pyrotechnics)

Q16. For fighting an electrical fire, the action to be taken is to use a

- A) Foam Extinguisher
- B) Portable CO2 extinguisher
- C) Water Hose
- D) Soda Acid Extinguisher

Correct Answer: B (Portable CO2 extinguisher)

Q17. The following task requires a hot work permit

- A) Lifeboat drill
- B) Welding on deck
- C) Painting on deck
- D) Opening hatch covers

Correct Answer: B (Welding on deck)

Q18. Ear muffs are used to protect the ears from

- A) Heat radiation
- B) Inflammable gases
- C) High intensity sound
- D) Bacterial infection

Correct Answer: C (High intensity sound)

Q19. Rigging the "Emergency Towing Arrangement" fore and aft when alongside is mandatory for

- A) General cargo ships
- B) Tankers
- C) Bulk carriers
- D) Container ships

Correct Answer: B (Tankers)

Q20. Inspection of life saving appliances shall be carried out

- A) Monthly
- B) Half yearly
- C) Bimonthly
- D) Weekly

Correct Answer: A (Monthly)

- A) When working aloft
- B) To prevent backache
- C) When cleaning the wheelhouse
- D) To store safety items

Correct Answer: A (When working aloft)

Q22. During Bunkering

- A) Plug sounding pipes
- B) Plug all deck scuppers
- C) Plug air pipes
- D) Raise the gangway

Correct Answer: B (Plug all deck scuppers)

Q23. The markings on a lifejacket include

- A) Ships GRT
- B) Ship masters name
- C) Ships port of registry
- D) Ship owners name

Correct Answer: C (Ships port of registry)

Q24. A self-contained breathing apparatus

- A) Is used for underwater surveys
- B) Contains oxygen
- C) Is connected to the deck air line
- D) Is used for entry in enclosed spaces

Correct Answer: D (Is used for entry in enclosed spaces)

Q25. Match the term "TWO SHORT BLASTS" with the most suitable answers given below

- A) Altering course to Starboard
- B) One prolonged blast followed by two short
- C) One prolonged blast every two minutes
- D) Altering course to port

Correct Answer: D (Altering course to port)

Q26. The familiarization of the joining crew is done by the

- A) Cadets
- B) Chief engineer
- C) Outgoing crew member
- D) Master

Correct Answer: C (Outgoing crew member)

- A) Hand flares
- B) Rocket parachutes + Hand flares
- C) Smoke signals + Line throwing apparatus
- D) Rocket parachutes + Hand flares+ Smoke signals

Correct Answer: D (Rocket parachutes + Hand flares+ Smoke signals)

Q28. Best method for fighting a fire in the paint room is

- A) Use a soda acid extinguisher
- B) Use a foam type extinguisher
- C) Use a water jet
- D) Use a fire blanket

Correct Answer: B (Use a foam type extinguisher)

Q29. The international signal for "Man Overboard" is

- A) Continuous ringing of the ship's alarm
- B) Five short and rapid blasts
- C) Three prolonged blasts
- D) Seven or more short blasts followed by prolong blast

Correct Answer: C (Three prolonged blasts)

Q30. Engine room bilges are pumped into the sea through the

- A) Oily water separator
- B) Shore connection
- C) Bilge line
- D) Overboard valve

Correct Answer: A (Oily water separator)

Q31. An emergency alarm is sounded when the ship

- A) Is overtaking another ship
- B) Has had a collision
- C) Is altering course
- D) Navigating in heavy traffic

Correct Answer: B (Has had a collision)

Q32. Match the term "ONE PROLONGED BLAST FOLLOWED BY THREE BLASTS IN SUCCESSION" with the most suitable answers given below

- A) Five short blasts
- B) Six short blasts
- C) Altering course to Starboard
- D) Vessel being towed

Correct Answer: D (Vessel being towed)

- A) Steering the ship
- B) Handling wire ropes
- C) Handling food stuff
- D) Cleaning crew's mess room

Correct Answer: B (Handling wire ropes)

Q34. Match the term "TO ATTRACT ATTENTION" with the most suitable answers given below

- A) Vessel being towed
- B) Five short blasts
- C) One prolonged blast followed by two short
- D) Six short blasts

Correct Answer: B (Five short blasts)

Q35. A bowsing tackle is used to

- A) Keep the lifeboat close to the embarkation deck
- B) Lash the lifeboat to the davits
- C) Lowering the lifeboat oars
- D) Tow the life raft

Correct Answer: A (Keep the lifeboat close to the embarkation deck)

Q36. On joining the ship the crew members should familiarize themselves with the

- A) Contents of the lifeboat
- B) Menu
- C) Muster list
- D) Crew list

Correct Answer: C (Muster list)

Q37. A tank entry permit is to be completed before entering into the

- A) Ballast compartment
- B) Battery room
- C) Steering gear compartment
- D) Meat room

Correct Answer: A (Ballast compartment)

Q38. An oil fire can be extinguished by

- A) Smothering with foam
- B) Cooling with a water jet
- C) Cutting off the fuel supply
- D) Removing the burning material

Correct Answer: A (Smothering with foam)

Practice Set 14

Q1. The pump room in a tanker should be ventilated

- A) When the pumps are running
- B) After entering
- C) Only when there is a gas leak
- D) Prior entry

Correct Answer: D (Prior entry)

Q2. Safety helmet is used to protect the head

- A) Against adverse weather
- B) From falling objects
- C) From getting wet
- D) From inflammable gases

Correct Answer: B (From falling objects)

Q3. When the low pressure alarm sounds on the SCBA the user should

- A) Vacate the compartment immediately
- B) Close the air bottle valve
- C) Remove the face mask
- D) Monitor the pressure in the bottles

Correct Answer: A (Vacate the compartment immediately)

Q4. An enclosed space entry permit is to be completed before entering into the

- A) Forepeak store
- B) Loaded cargo hold
- C) Paint store
- D) Provision store

Correct Answer: B (Loaded cargo hold)

Q5. The ullage tape lowered into a cargo tank of a tanker should be earthed to prevent

- A) Static hazards
- B) Tank going empty
- C) Pump running dry
- D) Tank overflow

Correct Answer: A (Static hazards)

Q6. FFA on board means

- A) Fire fighting arrangements
- B) Fire fighting appliances
- C) Foam fire apparatus
- D) Fixed fire appliances

Correct Answer: B (Fire fighting appliances)

- A) Improve safety in accommodation
- B) Prevent and control pollution from ships
- C) Ensure adequate stability for ships
- D) Improve cleanliness on board

Correct Answer: B (Prevent and control pollution from ships)

Q8. Risk assessment is carried out to

- A) Assess the time required for a job
- B) Fill up the required forms
- C) Identify the risks involved with a chaptericular task
- D) Decide how many people are required for a job

Correct Answer: C (Identify the risks involved with a chaptericular task)

Q9. The SOPEP locker contains

- A) Pyrotechnics and distress equipment
- B) Oil spill containment equipment
- C) Machinery spares
- D) Hold cleaning equipment

Correct Answer: B (Oil spill containment equipment)

Q10. Boiler suit is used to protect the body

- A) When working on deck
- B) In wet weather
- C) Against chemical contamination
- D) When using the washing machine

Correct Answer: A (When working on deck)

Q11. After every use, a fire hose must

- A) Be hung up to dry and later correctly stowed
- B) Be tested to a pressure of 4 Kg/cm²
- C) Be stowed in a safety equipment locker
- D) Have their couplings removed

Correct Answer: A (Be hung up to dry and later correctly stowed)

Q12. Ship's galley is provided with the following for cooking

- A) Fuel oil burners
- B) LPG burners
- C) Diesel oil burners
- D) Electric hot plates

Correct Answer: D (Electric hot plates)

- A) Restricted area
- B) Shore leave stopped
- C) No smoking
- D) Visitors prohibited

Correct Answer: C (No smoking)

Q14. EEBD is used for

- A) Boarding survival craft
- B) Fighting fires
- C) Going on deck in heavy weather
- D) Emergency escape

Correct Answer: D (Emergency escape)

Q15. Before lifting a lifeboat from the water, it must be ensured that

- A) Bottom plug is shipped tight
- B) Engine is going astern
- C) Fall wires are clear and hooked securely
- D) Sea anchor is streamed

Correct Answer: C (Fall wires are clear and hooked securely)

Q16. When lifting up weights, one should

- A) Keep knees straight and lift weight with bent arms
- B) Keep the legs and arms straight
- C) Keep arms outstretched and pick up weights
- D) Sit on knees and lift weight with a straight back

Correct Answer: D (Sit on knees and lift weight with a straight back)

Q17. Emergency escape routes should be kept

- A) Open when needed
- B) Open always
- C) Locked at sea
- D) Locked in port

Correct Answer: B (Open always)

Q18. Immersion suit is used to prevent

- A) Hypothermia
- B) Drowning
- C) Injuries
- D) Heat burns

Correct Answer: A (Hypothermia)

- A) Covering with CO₂
- B) Cutting fuel supply
- C) Cutting contact with air
- D) Removing heat

Correct Answer: C (Cutting contact with air)

Q20. Match the term "ONE SHORT BLAST" with the most suitable answers given below:

- A) One prolonged blast followed by two short
- B) Altering course to Starboard
- C) Five short blasts
- D) One prolonged blast every two minutes

Correct Answer: B (Altering course to Starboard)

Q21. When you see oil slick in the water at anchorage

- A) Report to the duty officer
- B) Lowering the lifeboat oars
- C) Do nothing
- D) Keep the lifeboat close to the embarkation deck

Correct Answer: A (Report to the duty officer)

Q22. Before you start welding you must obtain a

- A) Cold work permit
- B) Hot work permit
- C) Shore leave permit
- D) Enclosed place permit

Correct Answer: B (Hot work permit)

Q23. When receiving LSA/FFA items on board, all items must be

- A) Open it and check contents against delivery order
- B) Received in good packing
- C) Cheaply available
- D) Of approved type

Correct Answer: D (Of approved type)

Q24. Fire extinguishing medium in cargo tank of tanker is

- A) CO₂
- B) Dry Powder
- C) Sea water
- D) Foam

Correct Answer: D (Foam)

- A) Navigational bridge deck
- B) Aft deck
- C) Mast house on deck
- D) Fore mast

Correct Answer: D (Fore mast)

Q26. During rough weather or at night before going on deck you must inform

- A) Bosun
- B) Duty engineer
- C) Duty officer
- D) Chief officer

Correct Answer: C (Duty officer)

Q27. Abandon ship is indicated by

- A) Intermittent ringing of the ships bell
- B) Seven short and one long blast on ships whistle
- C) Masters verbal orders
- D) Continuous ringing of ship's bell

Correct Answer: C (Masters verbal orders)

Q28. The familiarization checklist should be completed when the crew member joins the vessel

- A) Prior to commencement of their duties on joining the ship
- B) Within one month of joining the ship
- C) Within one week of joining the ship
- D) Within two months of joining the ship

Correct Answer: A (Prior to commencement of their duties on joining the ship)

Q29. For entry in any enclosed space the oxygen content in the compartment should be

- A) 0.16
- B) 0.19
- C) 0.21
- D) 0.18

Correct Answer: C (0.21)

Q30. Prior to the tug pulling the tug line should be kept on the

- A) Air pipe
- B) Bow stopper
- C) Bollard
- D) Warping drum

Correct Answer: C (Bollard)

Q31. Face mask is used on board to protect the face from

- A) Bacteria
- B) Poison
- C) Water spray
- D) Fume inhalation

Correct Answer: D (Fume inhalation)

Q32. Careless housekeeping can result in

- A) Wastage of ship stores
- B) Accident, injury and fire
- C) Bad odour
- D) Higher inventory costs

Correct Answer: B (Accident, injury and fire)

Q33. The flammable range of a gas is

- A) Below LFL
- B) Between the LFL and UFL in air
- C) Above UFL
- D) Between the LFL and UFL in hydrogen

Correct Answer: B (Between the LFL and UFL in air)

Q34. Purpose of immersion suit is to protect a person from

- A) Cold
- B) Fire
- C) Heat
- D) Sunburn

Correct Answer: A (Cold)

Q35. Breathing apparatus is used for

- A) For navigating the ship in fog
- B) Launching a lifeboat
- C) Keeping a bridge watch
- D) Entering a compartment full of smoke

Correct Answer: D (Entering a compartment full of smoke)

Q36. The Garbage Management Plan indicates the

- A) Procedure for disposing laundry waste
- B) Capacity of the storage drums
- C) Procedure for disposing ships garbage
- D) Location of the ships incinerator

Correct Answer: C (Procedure for disposing ships garbage)

- A) The crew members
- B) Deck officers
- C) Duty engineers
- D) Engine crew

Correct Answer: A (The crew members)

Practice Set 15

Q1. DGS stands for

- A) Deputy General of Shipping
- B) Director Governor of Shipping
- C) Deputy Governor of Shipping
- D) Directorate General of Shipping

Correct Answer: D (Directorate General of Shipping)

Q2. The immigration officer checks the validity of the

- A) Safety certificates
- B) Passport
- C) Certificate of competency
- D) ISM certificate

Correct Answer: B (Passport)

Q3. CDC stands for

- A) Current Discharge Certificate
- B) Coastal Discharge Certificate
- C) Continuous Discharge Certificate
- D) Country Domicile Certificate

Correct Answer: C (Continuous Discharge Certificate)

Q4. MARPOL 73/78 does not regulate the discharge of

- A) Oil into the sea
- B) Chemicals into the sea
- C) Fresh water into the sea
- D) Garbage into the sea

Correct Answer: C (Fresh water into the sea)

Q5. The shore pass to the ships staff is issued by the

- A) Customs
- B) Immigration
- C) Port Health
- D) Port Control

Correct Answer: B (Immigration)

- A) Survival of Life at Sea
- B) Safety of Life at Sea
- C) Sustaining of Life at Sea
- D) Survival of Lifeboat at Sea

Correct Answer: B (Safety of Life at Sea)

Q7. Sounding of all fuel tanks are entered in the

- A) Deck Log Book
- B) Engine Log Book
- C) Official Log Book
- D) Rough Log Book

Correct Answer: B (Engine Log Book)

Q8. The authority which inspects foreign ships in national ports is called

- A) Flag State Control
- B) Port State Control
- C) Pollution Control
- D) Merchant Ship Control

Correct Answer: B (Port State Control)

Q9. MMD stands for

- A) Mercantile Marine Dechapterment
- B) Merchant Marine Dechapterment
- C) Master Mariners Dechapterment
- D) Manpower Marine Dechapterment

Correct Answer: A (Mercantile Marine Dechapterment)

Q10. One of the main duties of the Shipping Master includes

- A) Inspection of cargo holds
- B) Engagement and discharge of officers and ratings
- C) Navigation of the ship
- D) Conducting marine surveys on the ship

Correct Answer: B (Engagement and discharge of officers and ratings)

Q11. Under ISPS Code the agent on boarding the ship should be given a

- A) Visitor's card
- B) Custom card
- C) Audit Card
- D) Greeting card

Correct Answer: A (Visitor's card)

- A) LSA Code
- B) BLU Code
- C) ISPS Code
- D) ISM Code

Correct Answer: D (ISM Code)

Q13. ISPS stands for
